- Are medium quantity orders getting you down?
- Are you relying on someone else to run your 1000 to 3500 quantity orders and then having to put up with excuses for late deliveries and poor quality?
- Are you constrained by limited manufacturing space?
- Do you wish you could afford a small flexographic printer slotter that is easy to run and even easier to maintain?

Look no further. RJE Machinery, Inc. is proud to introduce their entry level printer slotter, the Scorpion. The Scorpion is designed with one thing in mind: the affordable manufacture of short to medium sized carton orders with real flexo printing. Utilizing industry standard tooling, a low maintenance gear drive, and a laser-engraved anilox roll, the Scorpion has all of the features you are looking for at an affordable price.

Manufacture your own medium sized orders in-house, taking advantage of your expertise in servicing your customer's desires while increasing your bottom line!
