The RJE Super-C Bandsaw features heavy-duty, unitized welded steel construction and is fabricated from all steel. It comes fully guarded and prewired for fast and easy installation.

The extra-large feed table accommodates even the largest jobs easily. Carter blade guides are standard. The guards are electrically interlocked for safety, and trigger electronic braking to bring the machine to a smooth, controlled stop.

The fence is mounted on a rack and pinion system for easy positioning,

and features dual locks for added holding power. The standard push guide makes cutting pads simple and easy, and it is easily removable.

## The Advantages Of Buying An **American** Made Product

At RJE, we often see companies investing in products from overseas because they are half the price as that of American made products. The issue with this is, you are getting everything for half the price: the quality, the parts, and the attention and service you so desperately need when your machine is failing to produce! Can you really afford this? Remember the old adage:

*"You get what you pay for!"*

Why buy from RJE, an American company? At RJE, we couldn't be more proud in what we manufacture. Our machinery is made of heavy-duty construction, the highest quality parts, the highest technology available, and most of all it is all backed up by the highest quality of attention and service around!

So, before you purchase from overseas, call us, we would like the opportunity to compare.
